**Veterinarian Operation items:** Cut out each term, fold the paper in half and put in separate container or bag. Cut out a picture of a horse and put in on the game, carefully cut out the spots where there is an item to operate on. Here are some ideas, but you can make up any. Label the picture before playing the game. Have some items printed off, folded in half and put in a container or bag.

For the original game

APPLE CHUNK (Adam's apple)

BROKEN HEART

FARRIER'S TOOL (wrenched ankle)

WORMS (butterflies in stomach)

CHIP ON THE SHOULDER

CAPPED KNEE

BROKEN BONE

LIGAMENT (elastic)

ATE JUDGE'S PENCIL

BABY HORSE

COLIC (ate feed bucket)

TWISTED GUT (ate grooming tote)

WISH BONE

For the Simpson's version game

BROKEN VERTEBRA

CRICK IN THE NECK

CHIP ON THE SHOULDER

LAME LEG

UNHAPPY HEART

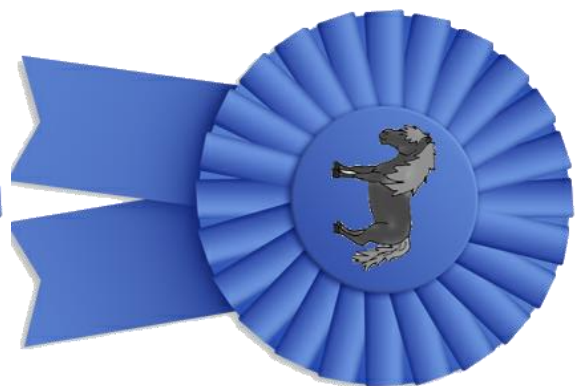

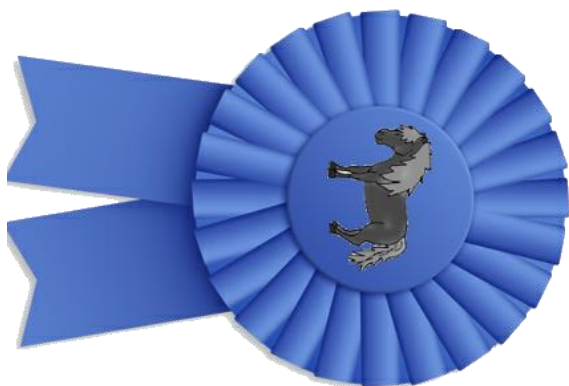

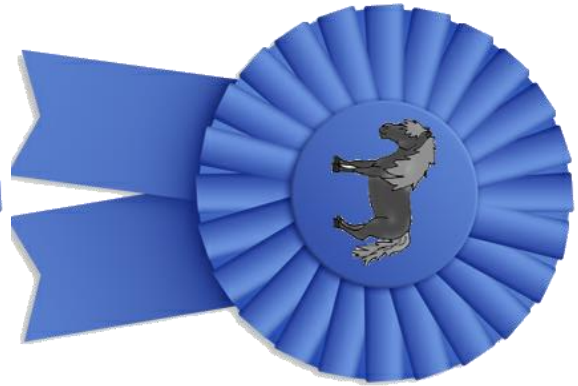

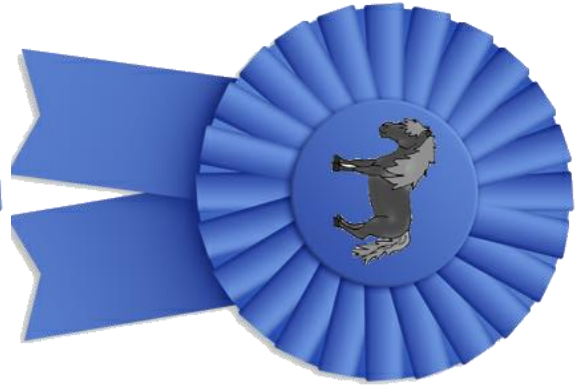

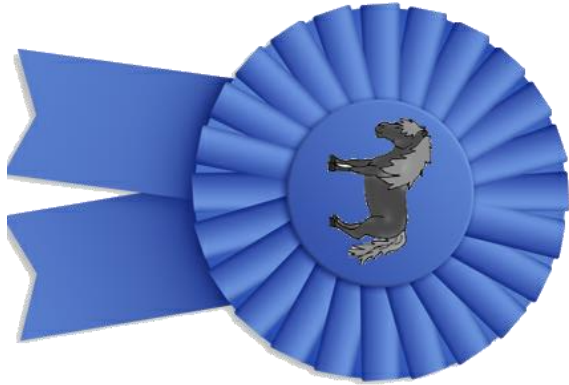

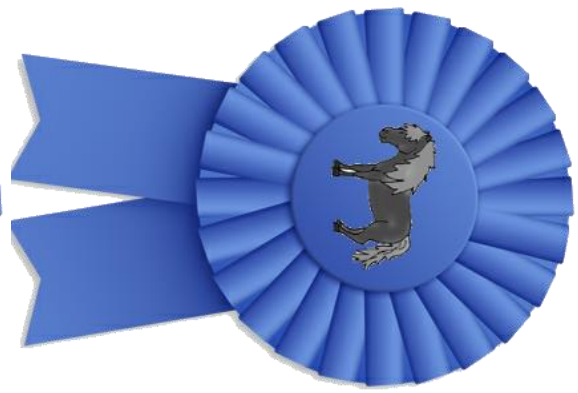

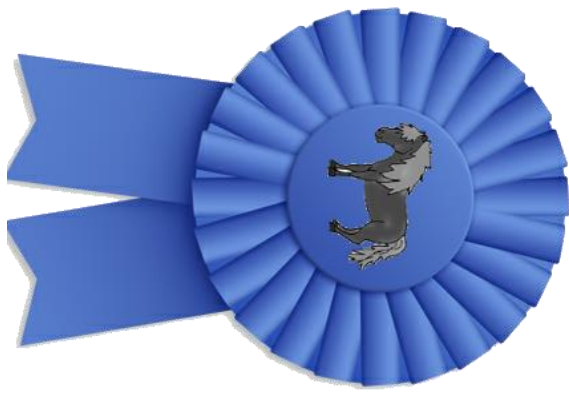

BROKEN RIB

COLIC (ate feed bucket)

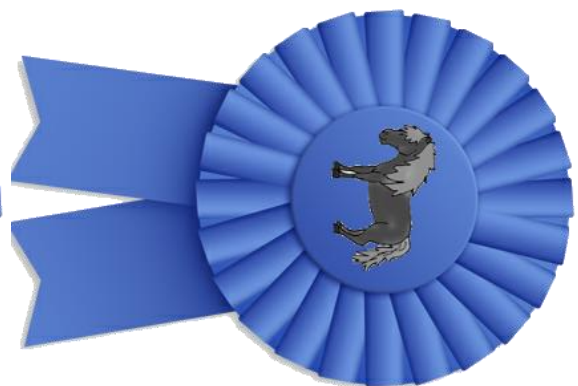

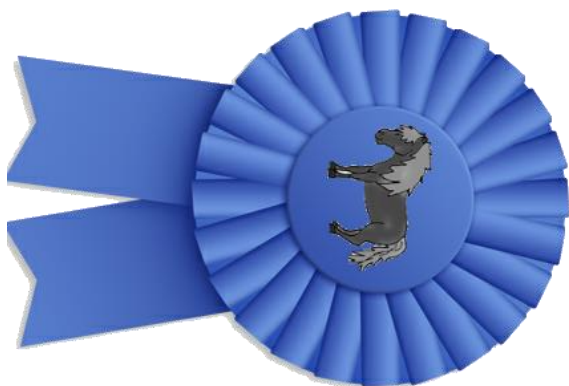

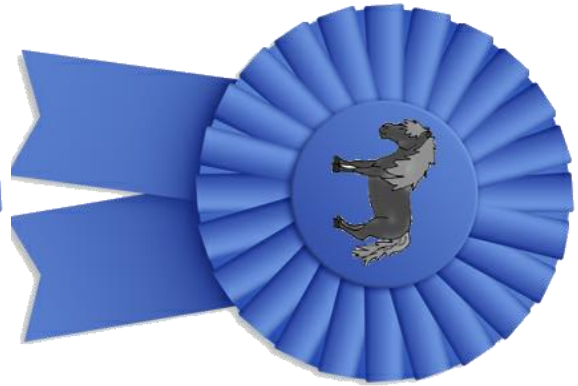

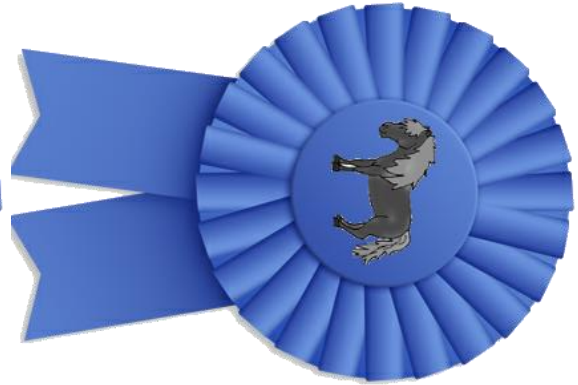

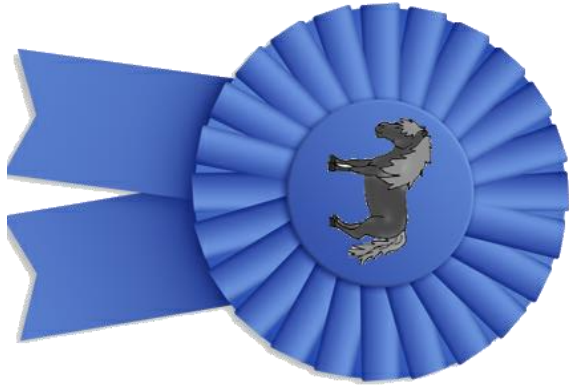

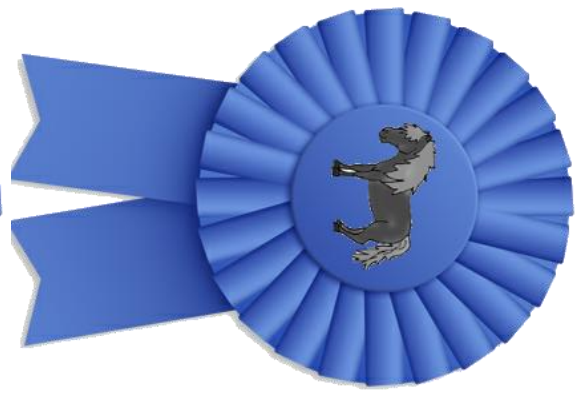

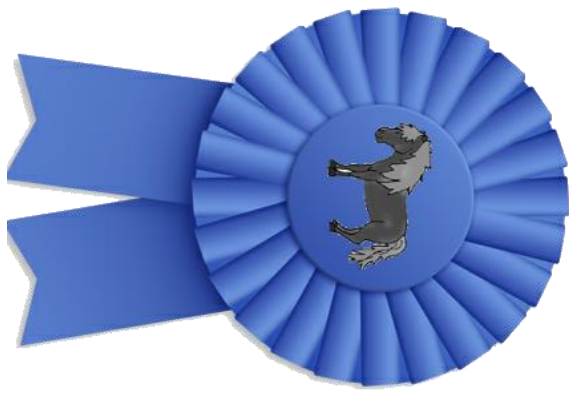

DISLOCATED HIP PIN

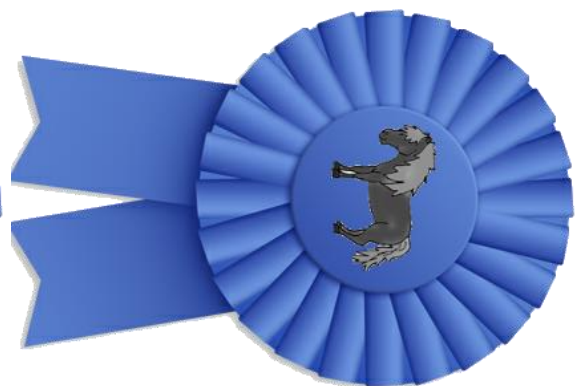

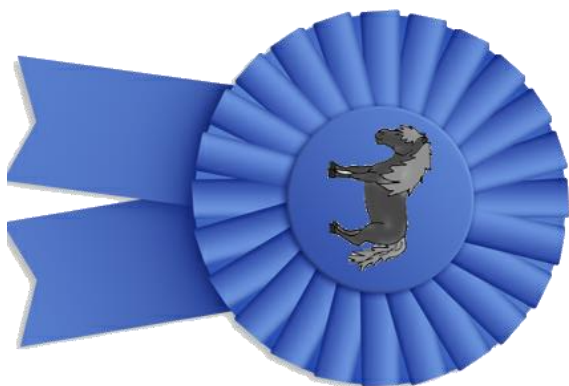

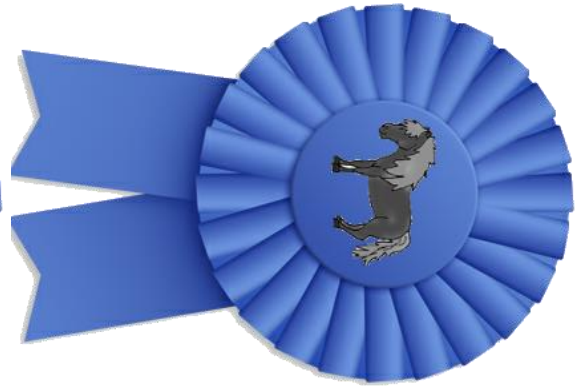

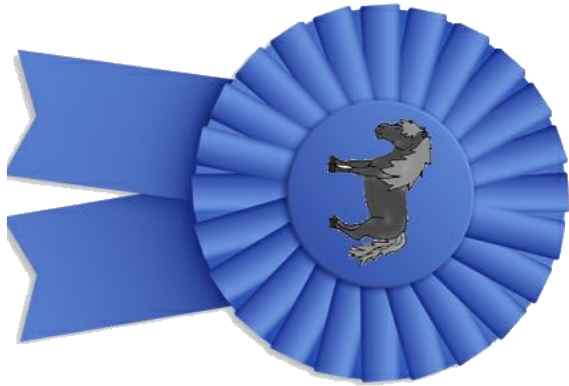

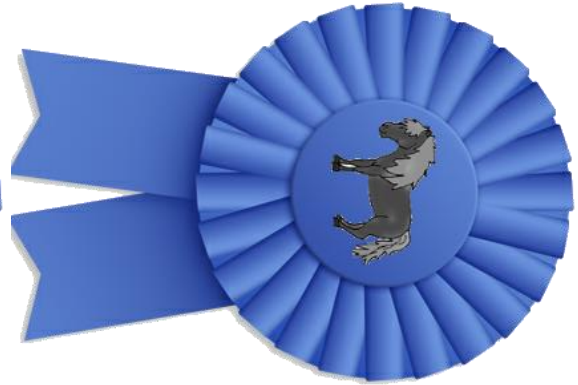

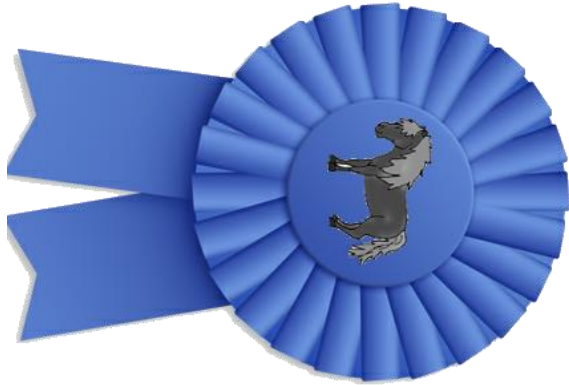

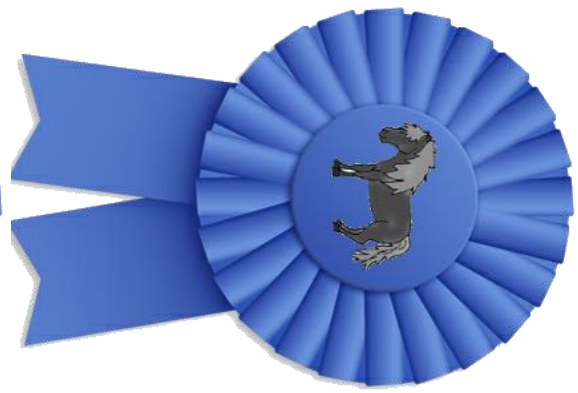

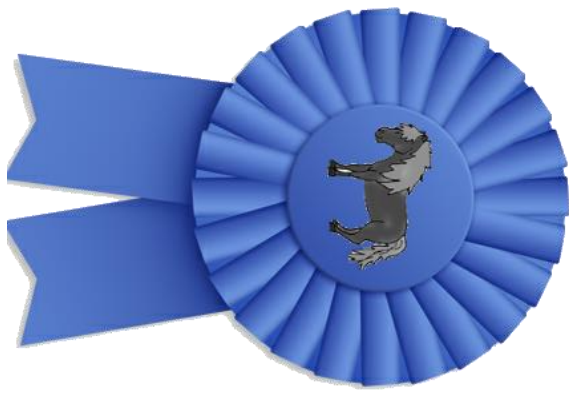

TRICK LEG

TWISTED GUT

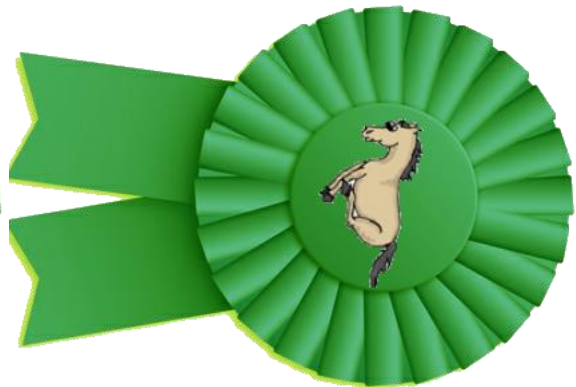

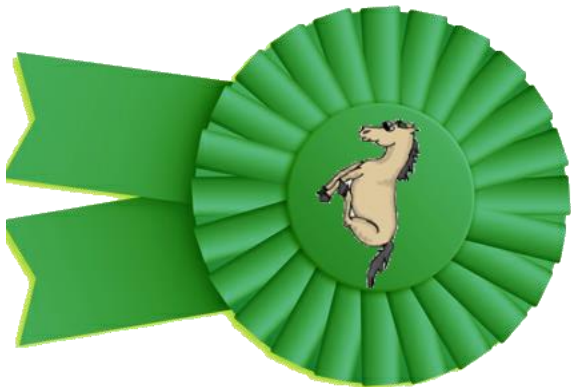

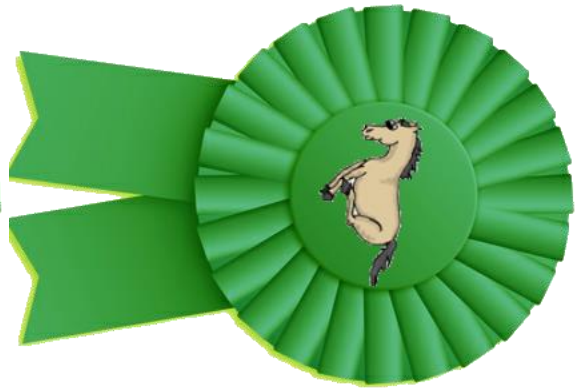

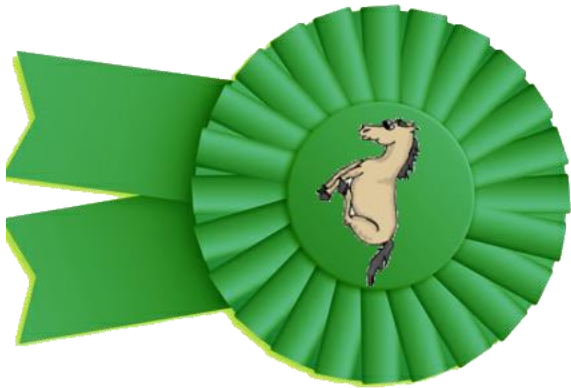

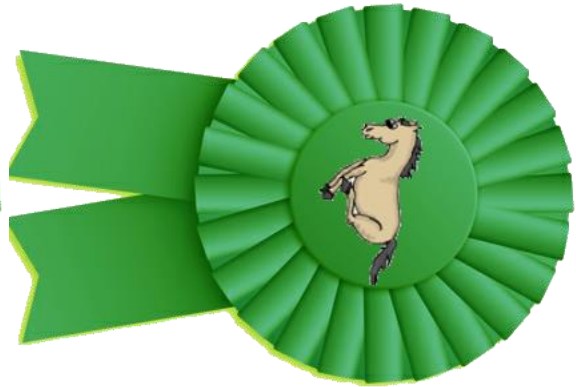

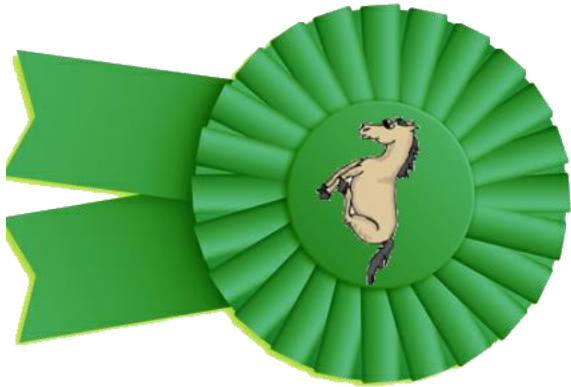

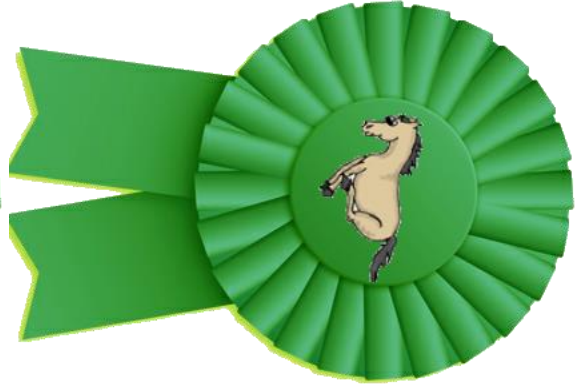

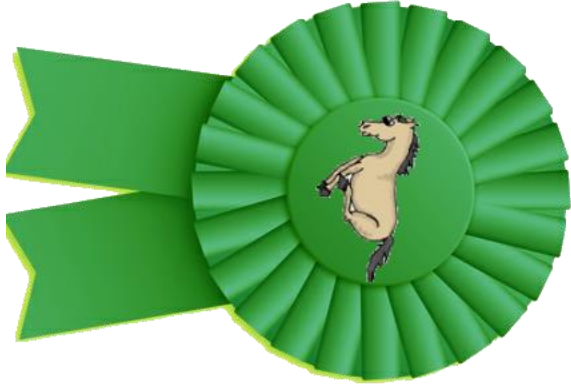

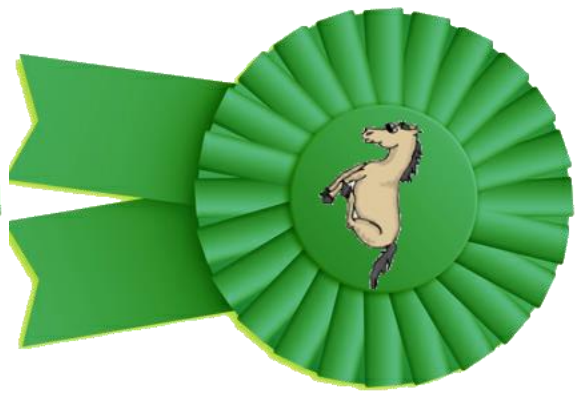

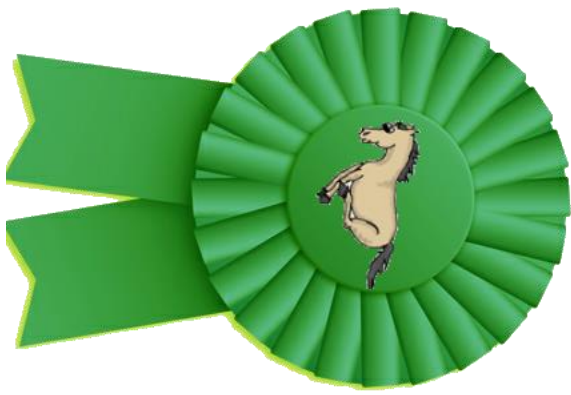

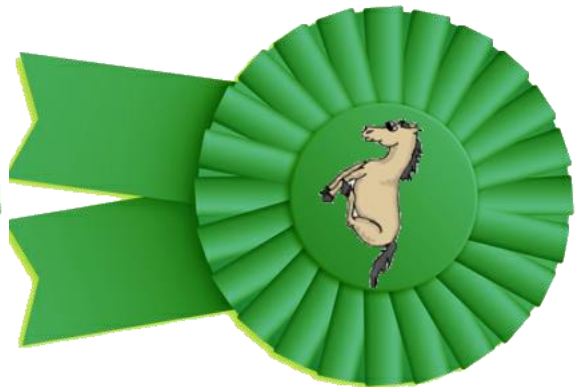

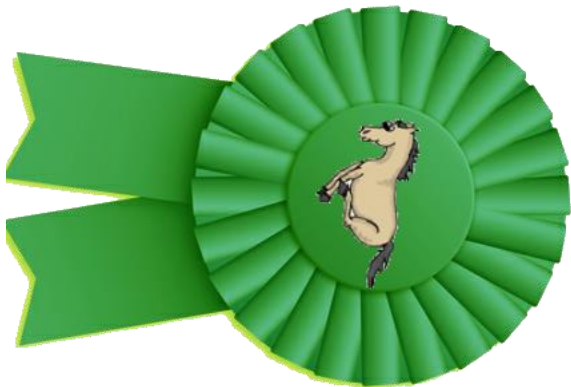

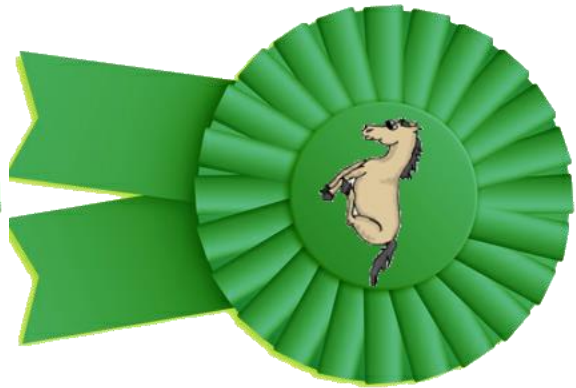

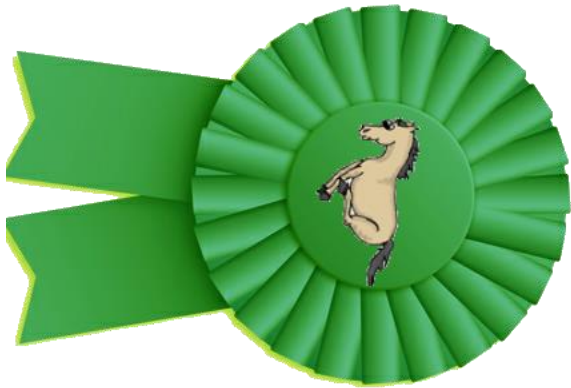

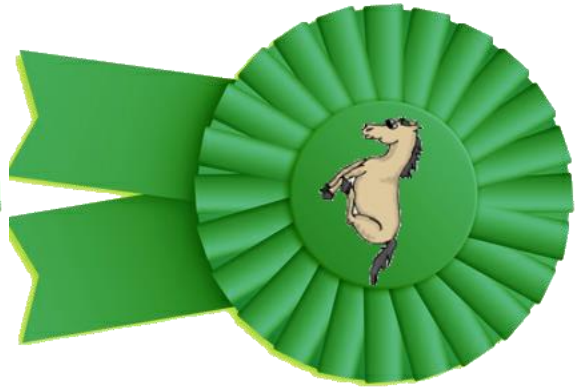

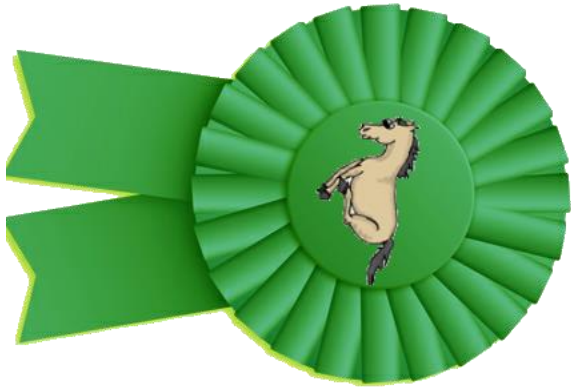

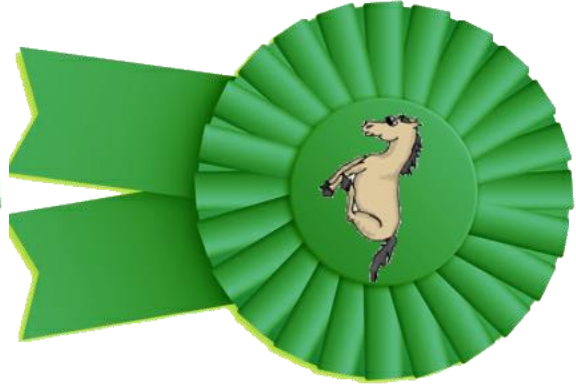

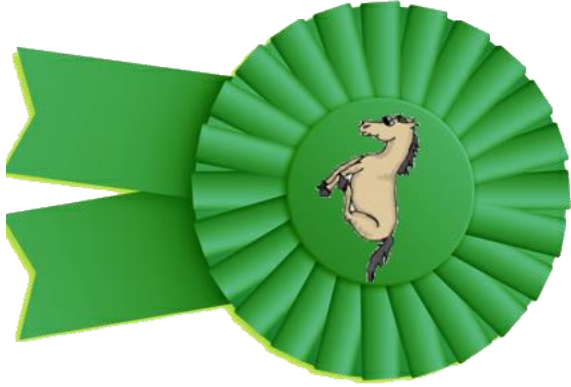

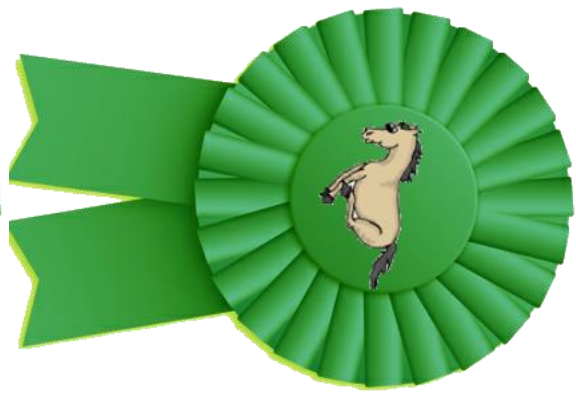

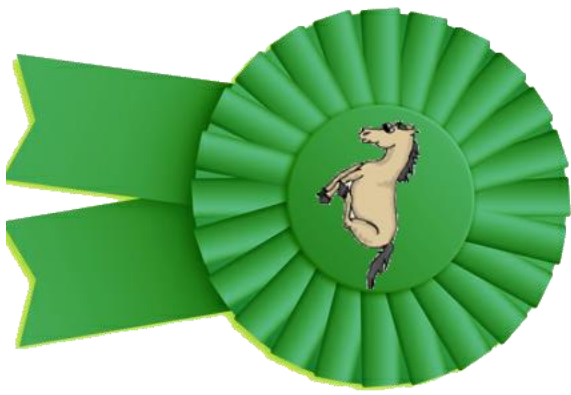

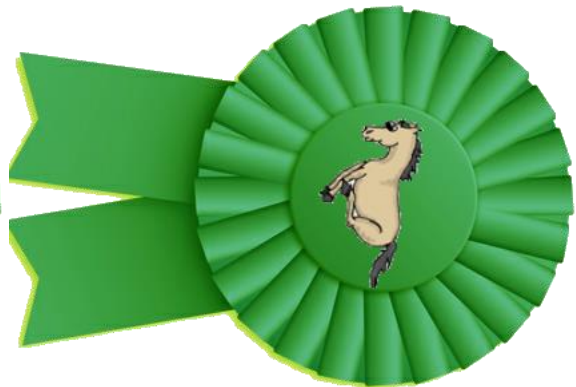

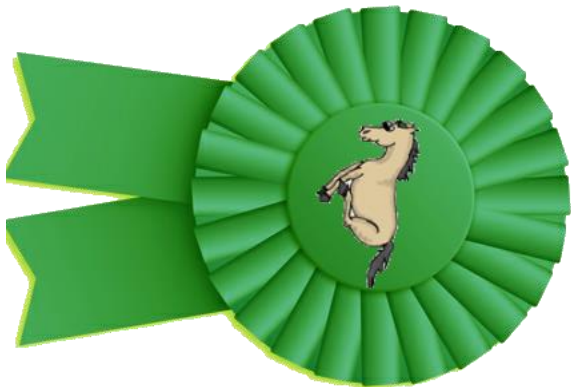

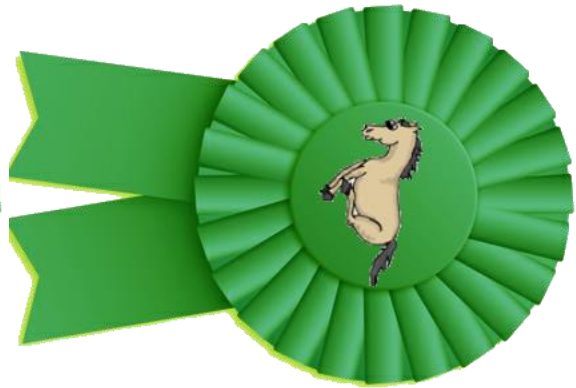

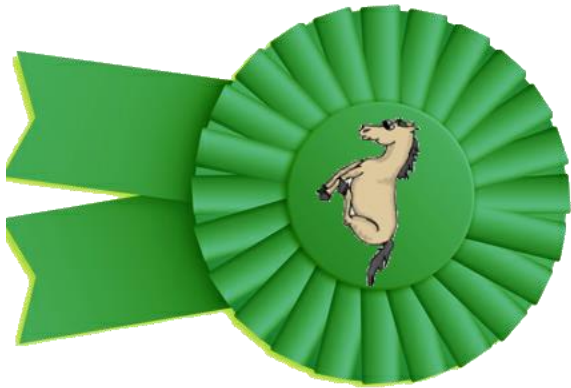

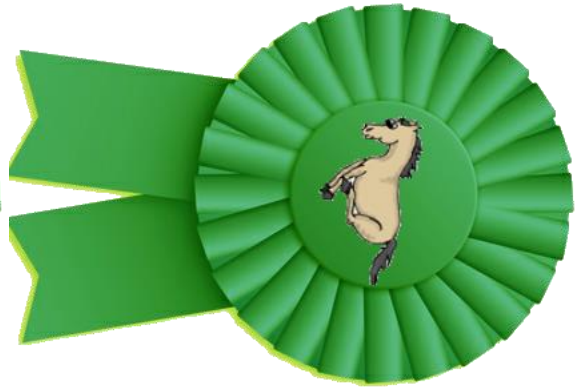

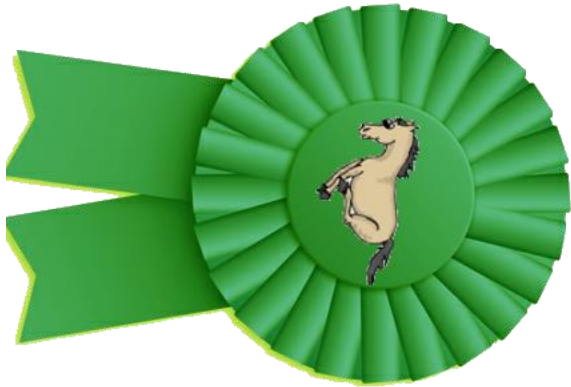

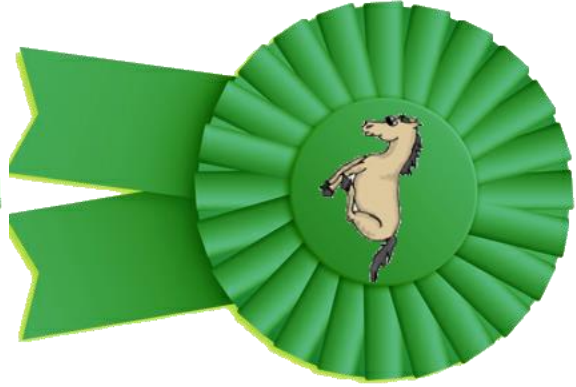

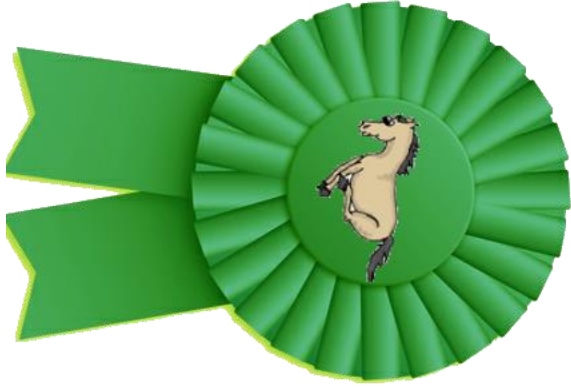

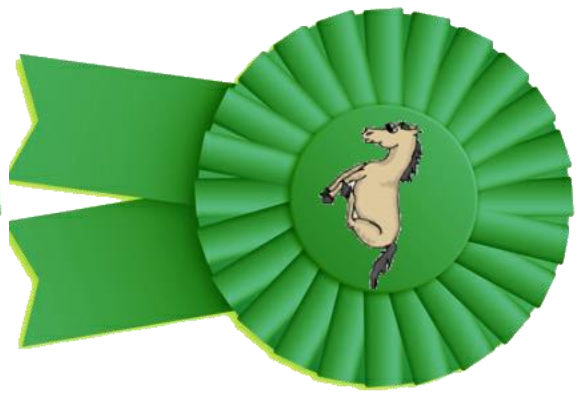

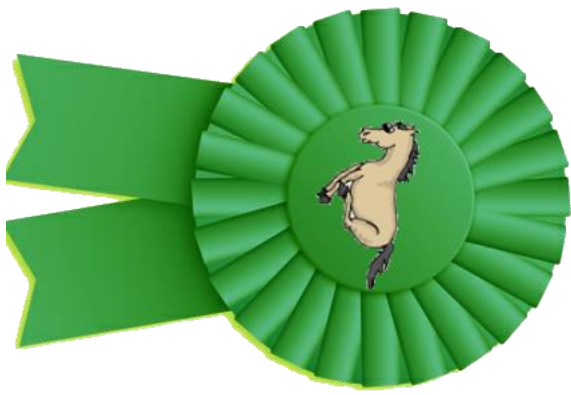

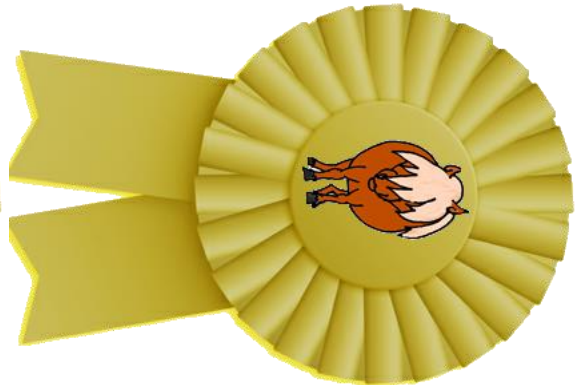

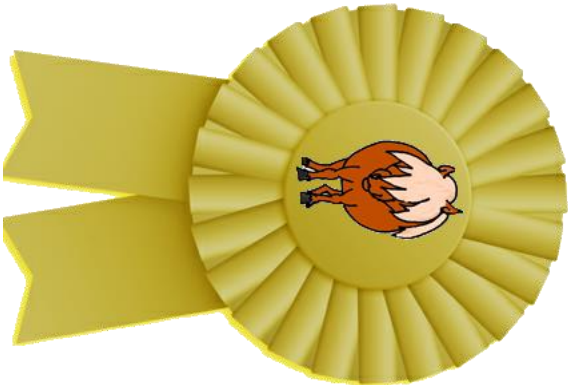

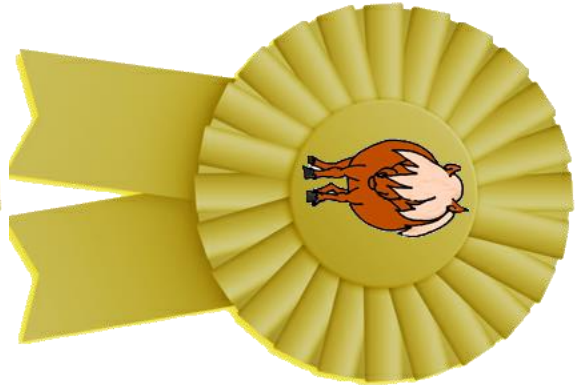

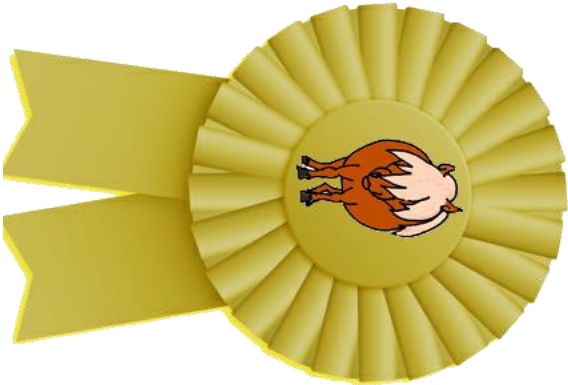

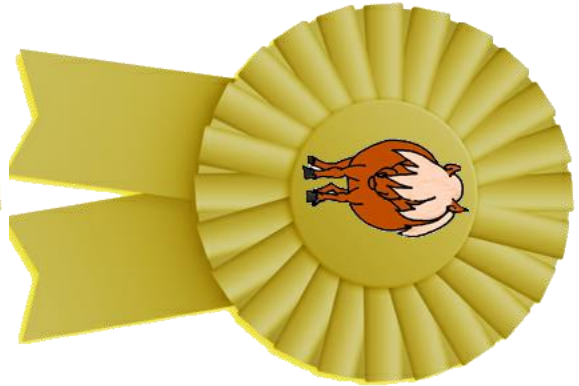

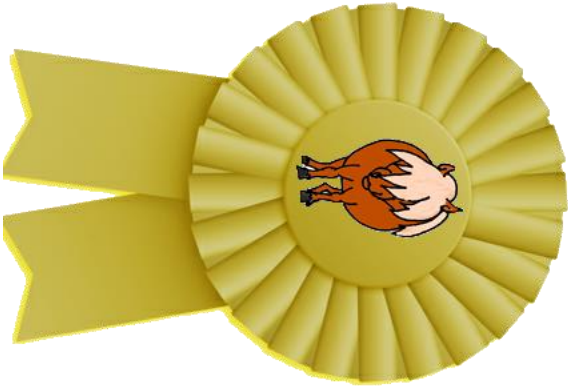

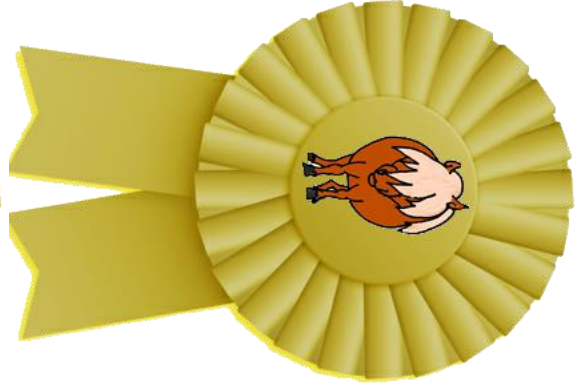

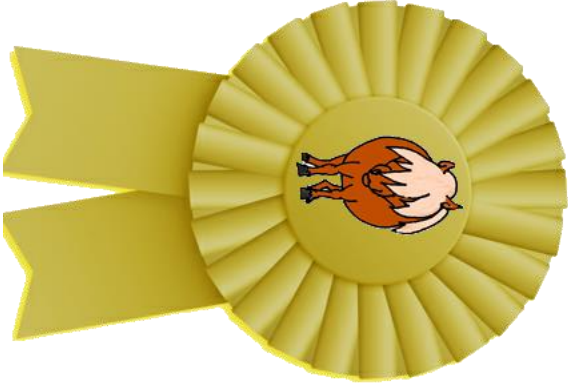

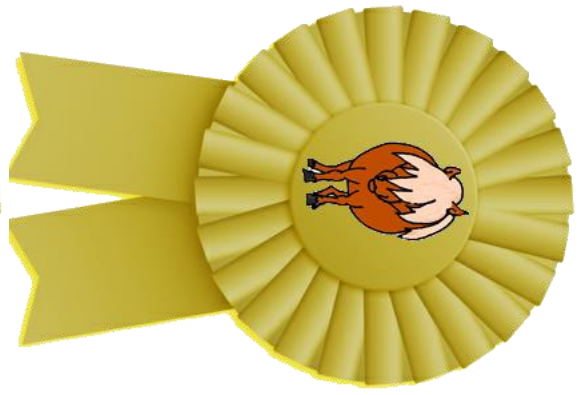

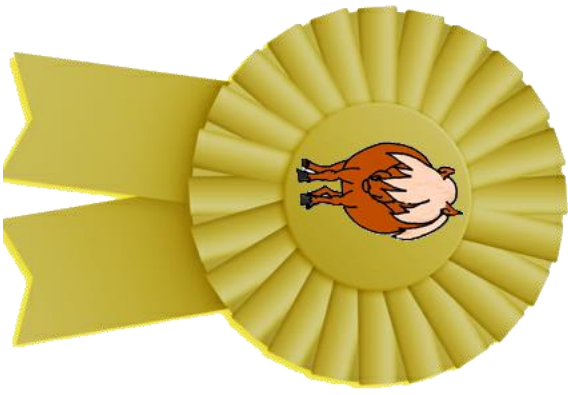

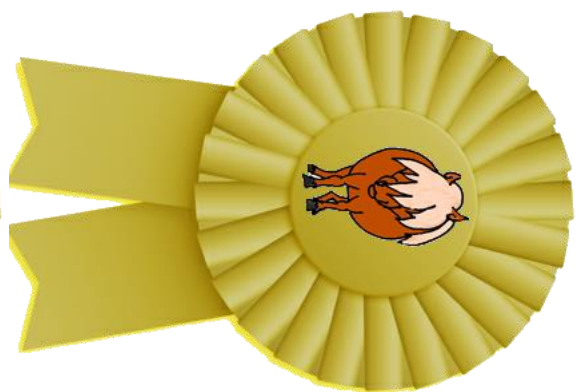

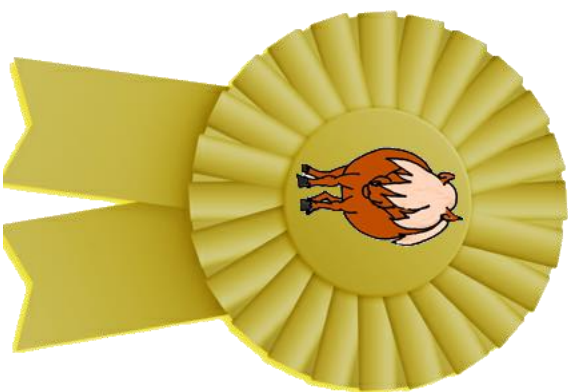

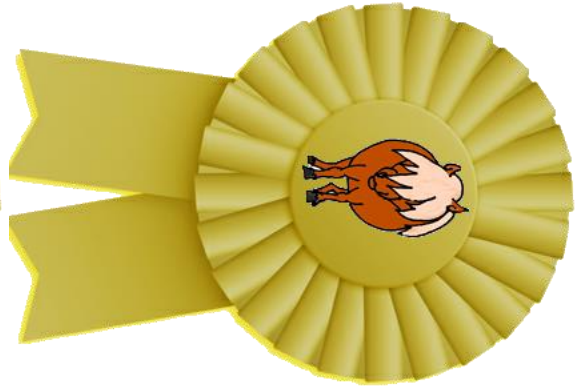

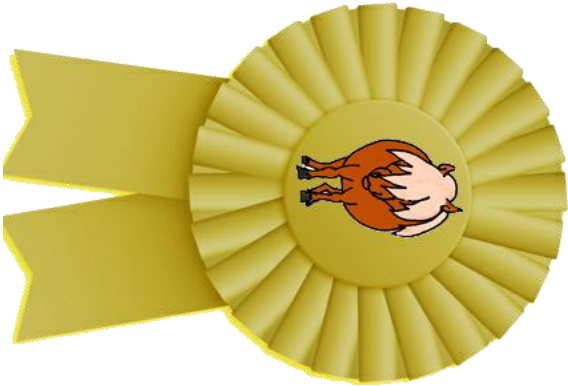

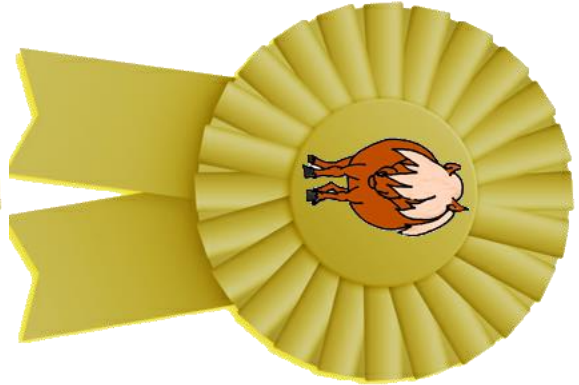

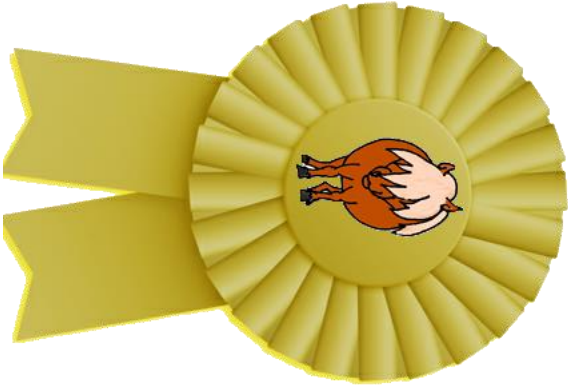

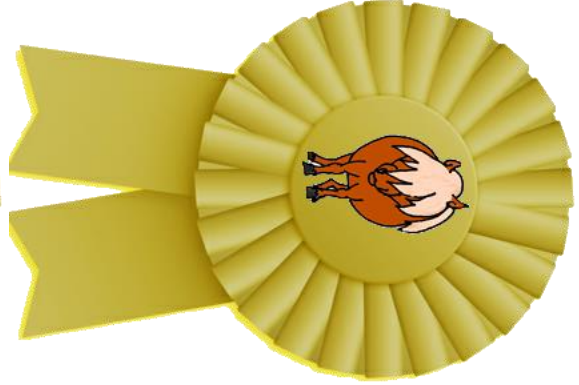

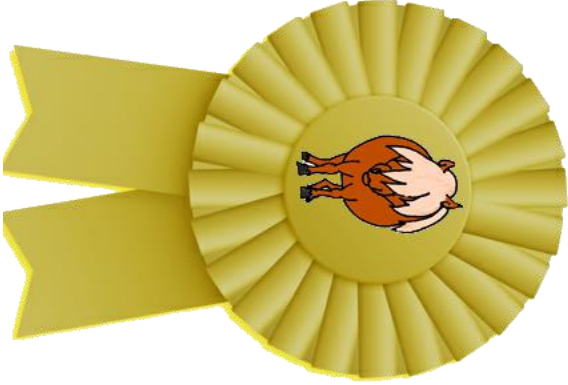

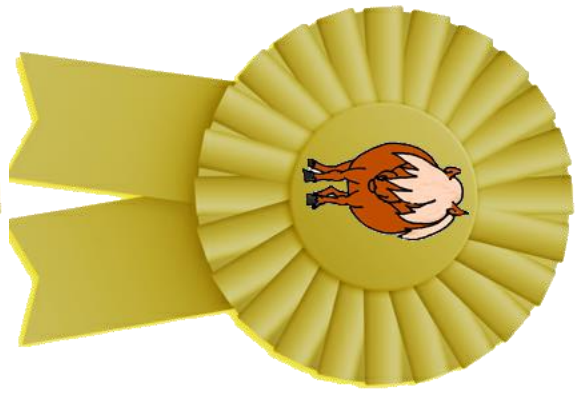

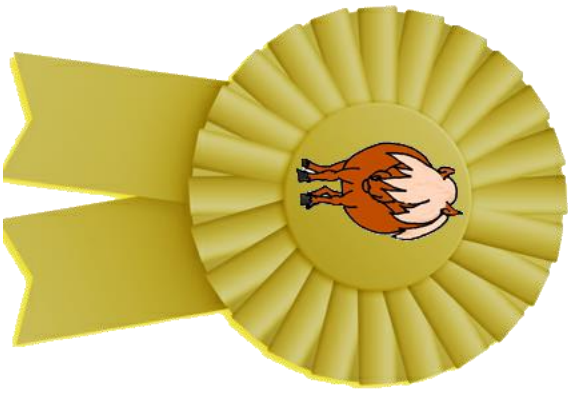

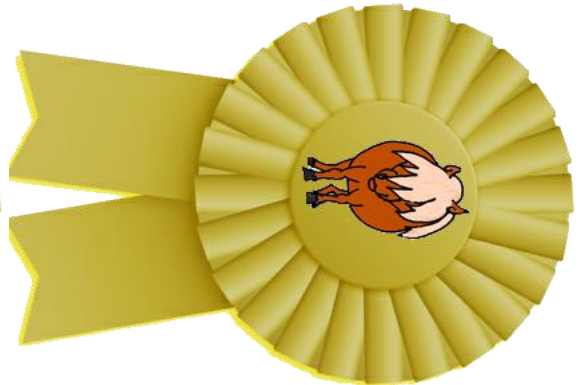

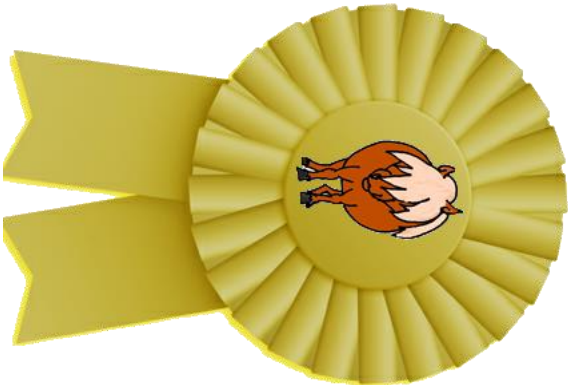

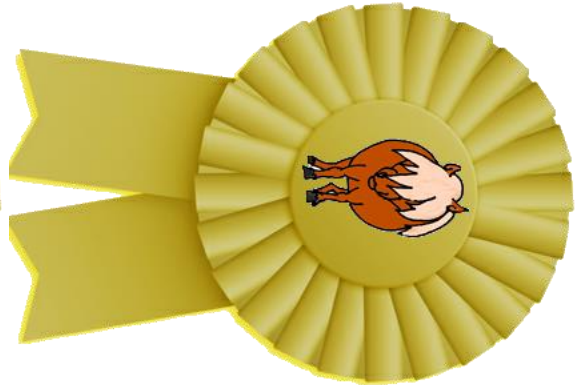

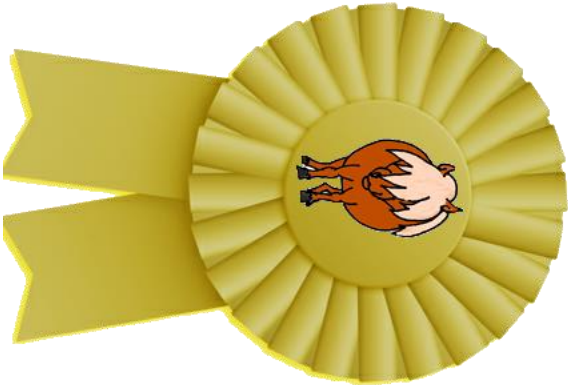

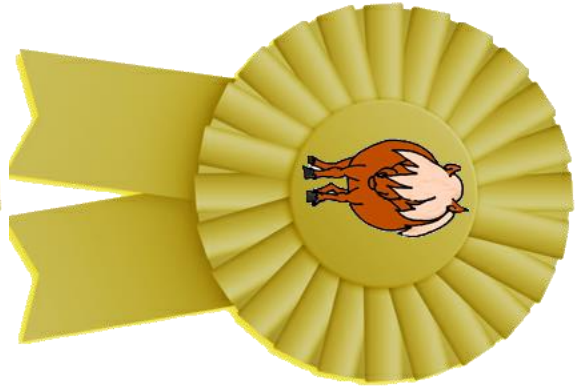

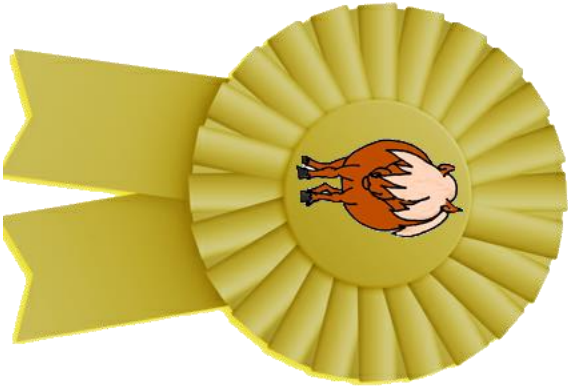

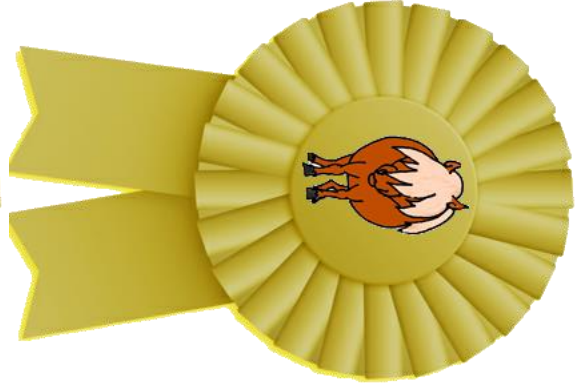

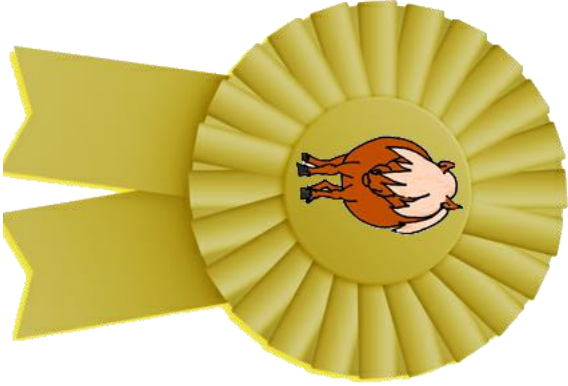

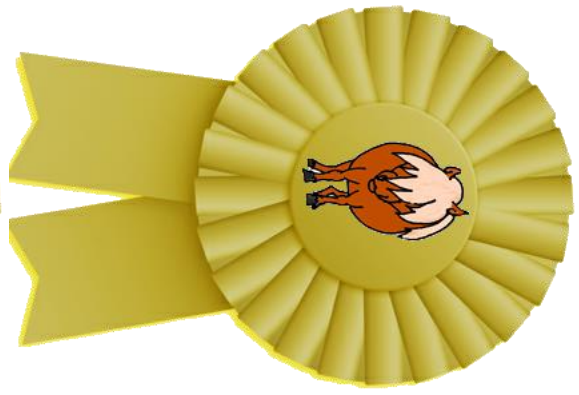

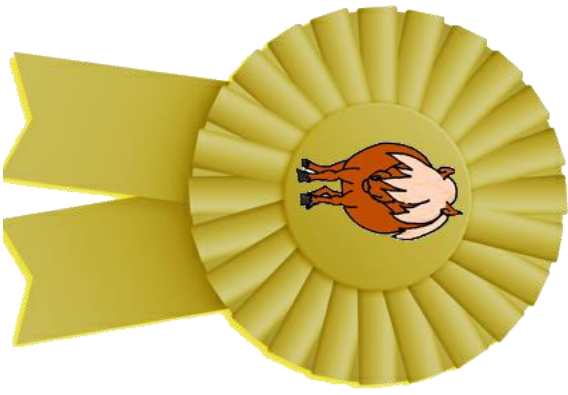

# Barnboozle Rules:

**Goal:** Be the first one to have a red, blue, yellow and green rosette and make it to the pasture of paradise gates where you pull the monkeys tail to enter.

## **Game Play:**

One person is designated as the game host who answers questions and directs game play.

Youngest player goes first and play is continued around the board clock-wise. Start on the Ladder of Chance and roll one die to travel up the ladder. Go through the barn door, past the time turtle, around the rainbow ring and to the pasture of paradise.

You will need the game board pasted together (4 pieces), playing tokens (little plastic horses are fun), one die, playdough and terms of playdough items to make (put in a container or bag), game "Operation" (optional) and list of operation titles (put in a container or bag), game "Buckaroo" (optional), one roll of toilet paper and terms to make (put in a container or bag), Barnboozle cards, Wicked Wango cards, angel passes (1 per player), squeaky toys (optional), minute glass sand timer or clock watch and rosettes (enough for everyone).

**Red Square:** Take a trivia card and answer the question. If you get it right, you earn a red rosette. Your turn is over. You have a 30 second time allowance to answer. You can only answer once.

**Blue Square:** Take a trivia card and answer the question. If you get it right, you earn a blue rosette. Your turn is over. You have a 30 second time allowance to answer. You can only answer once.

**Yellow Square:** Take a trivia card and answer the question. If you get it right, you earn a yellow rosette. Your turn is over. You have a 30 second time allowance to answer. You can only answer once.

**Green Square:** Take a trivia card and answer the question. If you get it right, you earn a green rosette. Your turn is over. You have a 30 second time allowance to answer. You can only answer once.

**Purple Square** with a monkey on it: Hungry monkey, take a Barnboozle card and follow its orders. If you win the round/answer correctly, you get a rosette, the color of choice. You have a 30 second time allowance to answer. You can only answer once.

**If you land on a colored square with a star on it,** take a Wicked Wango card and follow its orders. Game play as normal. You have a 30 second time allowance to answer. You can only answer once.

**If you land on a square connected with a rainbow,** you have the option to take the rainbow for a different color square. You have a 30 second time allowance to answer. You can only answer once.

You may use your **Angel Pass** at any time to cancel out something bad that has happened to you on your turn, such as someone uses a Gimme Card to take your rosette, or you lose a turn. The angel card can only be used once and you only have one per game play per son.

**Barnboozle Cards: (Must be used right away and then discarded on the bottom of the deck)**

**You Have Been Barnboozled!** It's the end of game play for you unless you have an Angel Pass to counter it's effect.

**Fantastic Ride!** Free rosette: Take a rosette from the pile of your choice in color.

**Gimme Card:** The Gimme cards allow you to take as many rosettes as listed on the card, from as many different players as listed on the card.

**Horse is Muddy, Lose a Rosette:** Surrender one rosette (your choice of color) back on the pile.

**Trophy Card:** Roll again.

**Slow the Time Turtle:** Use a minute timer (sand glass or clock watch) and you have an extra 30 seconds to answer the next question.

**Wicked Wango Cards: (Must be used right away and then discarded on the bottom of the deck)**

**Backwards Bonus:** For your trivia question, answer it backwards correctly to earn your rosette. If it is a one word question, spell it backwards.

(May use a goofy hat to wear during this question only) **Put Your Creative Hat on for Pony Playdough:** Draw a

**Pony Playdough** card and use the playdough to sculpt the word on the card. One played of choice has 30 seconds to answer it correctly and you both get a rosette color of choice.

**Free For All:** Everyone gets a squeaky toy or raises their hand to answer the trivia question first. Winner gets a rosette for the color of that square.

**Hold Your Breath While Question is Read:** player must hold his breath while the question is read before he can breathe and answer it and earn a ribbon if it is correctly answered.

**Veterinarian Bonus:** Earn a rosette the color of your choice if you can correctly remove an object from the sick horse using the game called "Operation". If you do not have the Buckaroo game, skip this card and draw again. (May use a goofy hat to wear during this question only)

**Put Your Creative Hat on for Toilet Paper Origami:**

Using toilet paper, fold an item listed on the toilet paper origami cards. One player, your choice has 30 seconds to correctly answer it and you both get a rosette, the color of your choice.

**Super Speedy Round with Hopping Bonus:** If you choose to answer as many questions as possible in the category of your choice (or multiple categories) you must hop up and down. You can get a rosette for each question you answered correctly. Rosettes must match the question's category. If you fail to hop up and down during the question, you do not get any rosettes.

**It's Time to Tack Up the Mule:** With as many items as listed. During game play, you have the option of using the game called "Buckaroo". Leave the items on when done. If during the game play, all the items are used up, or if the mule bucks, take off all the items and start tacking him up again. If you do not have the Buckaroo game, skip this card and draw again.
